

1st Pre-bid queries for Engagement of Selection of Bidder for providing service for System Study, Design, Software Development, Technical support and maintenance in data collection, Data Management, website Development of a web based Chemical and Petrochemical Data Management System, held on 13.01.2023

SN	Clause No, Page No.	Clause Reference	Existing Provision/ Statement as per RFP	Concerned Agency	Points on which Clarification required	Response of DCPC
1	Page 1		Last date for Online Submission of e-bids : 27.01.2023 till 3 PM	EY	The last date of submission is different in RFP and on GeM portal	Earlier date is system generated. It will be revised shortly as per RFP.
2	Section 1.9(ii), pg 12	4th Point	The bidder will host the centralized database management, administration and maintenance of web-portal.	EY	Please refer 1.11 & 3.1.1 where it is stated "The bidder is required to make website, cloud hosting on NIC server and other requirement as per RFP. " This is contradicting clause 1.9	The job of bidder is to make website, cloud hosting on NIC server and other requirement as per RFP. Also bidder will have to host the centralized database management, administration and maintenance of web-portal.
3	Section 1.6, pg 9	2nd Paragraph	The guidelines issued by MeitY / G.O.I. from time to time may be referred for the purpose. It is expected from Bidder that they should have the requisite tools/ licenses for the development available with them both in onsite and offsite cases. However, in such cases where proprietary solution is provided to the DCPC as per their requirement, besides the product cost, all necessary cost in meeting the expenses towards License / Operating System / Premium Support/ etc. (as applicable) after completion of the project(after 3 years) to the DCPC, shall be borne completely by the DCPC.	EY	Please provide clarity as to whether all the tools, licences for the development needs to be taken care by the bidder however after 3 years it will be borne by DCPC	DCPC shall bear the cost of licences for entire period of agreement including extended periods. Henceforth, flexibility is being given here for such licences whose terms and conditions require more than 3 years coverage time.
4	Section 1.6, pg 9	2nd Paragraph	The guidelines issued by MeitY / G.O.I. from time to time may be referred for the purpose. It is expected from Bidder that they should have the requisite tools/ licenses for the development available with them both in onsite and offsite cases. However, in such cases where proprietary solution is provided to the DCPC as per their requirement, besides the product cost, all necessary cost in meeting the expenses towards License / Operating System / Premium Support/ etc. (as applicable) after completion of the project(after 3 years) to the DCPC, shall be borne completely by the DCPC.	EY	Please clarify whether development team will be based onsite or offsite or hybrid. Also in case of hybrid please provide clarity on the division of resources at onsite & offsite	Some support services would be required on site right from beginning. However, development team will be on offsite job, which may be require onsite for better management, as per requirement of the project.
5	Section 1.6, Pg 9	ONOD	If any services, functions or responsibilities not specifically described in the contract are an inherent, necessary or customary part of the services or are required for proper performance or provision of the services in accordance with the Broad Scope of Work or Indicative List of Required Features, they shall be deemed to be included within the scope of the work to be delivered for the charges, as if such services, functions or responsibilities were specifically described in the scope of work.	EY	In case some functionality which is not described here but are integral part of the scope in that case there should be " Change Request plan" where bidder can provide details with respect to cost for changes that are done apart from actual requirements	May be included in the project cost.
6	Section 1.7, Pg 10	Scope of Work	System should be robust, responsive and support at least 25,000 concurrent users per instance and scalable as per need.	EY	As per this clause the concurrent user count is high, request you to please clarify on the number of concurrent users as this will also impact the hardware sizing and cost as well.	As per RFP.
7	Section 1.8, page 11	Scope of Work	Conversion of the existing IT Platforms, Web-portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	EY	To assess the quantum of work, it is required to have count of existing websites/webpages. This will also help bidders in finalization of costing.	It is related to migration of data from existing PMS portal. It will be allowed after the selection of the agency. However, a brief detail on the same will be provided in advance.

8	Section 1.8, page 11	Scope of Work	Maintenance of IT Platforms, Web-portals and Web Applications	EY	It is understood that the PMU team will be there to support the developed system. Request clarification on the presence of development team for the period of 36 months.	Maintenance of IT Platforms, Web-portals and Web Applications shall be done by bidders's team, guided by team leader of PMU, as per RFP.
9	Section 1.8, Pg 11	Pt. 5	Conversion of the existing IT Platforms, Web-portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	EY	Request you to please provide details of GIGW version 2 guidelines and its checklist	Refer to GIGW guidelines at https://guidelines.india.gov.in/
10	Section 1.8, Pg 11	Pt. 5	Conversion of the existing IT Platforms, Web-portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	EY	Please confirm whether the cost of security audit will be borne by Bidder or Department	Bidder has to bear the cost.
11	Section 1.8, Pg 11	Pt. 5	Conversion of the existing IT Platforms, Web-portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	EY	Please provide list of existing IT platforms, web application and web portals as it will be required for estimating the effort properly	It is related to migration of data from existing PMS portal. It will be allowed after the selection of the agency. However, a brief detail on the same will be provided in advance.
12	Section 1.9 , page 11	Inventory of Chemicals and Petrochemicals Sector data	The bidder will identify the different groups of chemical and petrochemical items like Alkali Chemicals, Inorganic Chemical, Organic Chemical, Pesticides and Insecticides, Dyes and Pigments, Synthetic Fibre, Fibre Intermediate etc. and categorise items into different groups accordingly.	EY	It is to mention that to perform the said responsibility, the expertise of domain is required. It is requested to add the requirement of Domain/Subject matter expert.	Chemicals and Petrochemicals domain knowledge may be required to a limited extent
13	Section 1.9 (ii), pg 12	Pt. 7	Any modifications and/or enhancements / up-gradation required by DCPC in the software during support period shall have to be incorporated by the successful bidder free of cost during warranty period.	EY	Please define support period	3 years and another 2 more years as extended period.
14	Section 1.9 (ii), pg 12	Pt. 7	Any modifications and/or enhancements / up-gradation required by DCPC in the software during support period shall have to be incorporated by the successful bidder free of cost during warranty period.	EY	1. The modification/enhancements of the developed software should be limited to certain man hours otherwise it will be difficult to estimate the manpower. 2. Above decided manhours it should go into Change Request	Bidders should calculate cost on such issue, as an integral part of project.
15	Section 2.6, Pg 25	Technical Presentation	Subsequent to submission of proposals, the eligible bidders may be required to give a detailed technical presentation to the Technical presentation Committee of DCPC. The presentation may cover the following points: ☑ Company Profile and nature of their activities. ☑ Knowledge, skills, expertise pertaining to the areas for which proposal is submitted (primary focus). ☑ Achievements, awards won, etc. ☑ Plan/methodology for rendering the services for which the proposal is submitted. ☑ Capability and willingness. ☑ Understanding of the project. ☑ Any other differentiators.	EY	Please refer 3.14.4.2 Technical Presentation: in this clause the parameters for technical presentations are different. Please provide clarification.	Both parameters shall be part of technical presentaion.

16	Section 3.1.23, Pg 30	General terms and Conditions	The person deployed may be called on holidays to attend duty and shall be paid extra remuneration as per rates approved by the Competent Authority of DCPC on attending such duty.	EY	Please clarify if the remuneration will be paid on pro-rata basis of the quoted price or if there is any deviation on what basis it will be paid	No TA/DA for local work station shall be paid. However, TA/DA for PMU for outstation tour shall be paid by DCPC, as per rule.
17	Section 3.15, Pg 37	Technical Evaluation Criteria Pt. 6	Project Experience of National level in emerging areas like AI/ML/Big Data Analytics, Block Chain Technologies, BI tools etc. Demo during Technical Presentation.	EY	Please provide clarity if only govt projects are required or we can provide other national level projects also.	All national level project will be suffice.
18	Section 3.18 (A) Pg 40	Schedule of payments for development of CPDMS software	i. First instalment of 25% of the total cost at the time of the delivery and installation of CPDMS Software. ii. Second and final instalment of 75% of the total cost on final submission, acceptance and successful implementation of the CPDMS Software.	EY	As per this clause the final payment for development work will be done on successful implementation of CPDMS portal which as per RFP timeline is 1st April 2023 however in the financial bid format the cost for 3 years needs to be provided. Please provide clarity as to how many resource will be required during support and maintenance phase and their profiles details	The payment in two installments is only for the development of software part. However, the payment for manpower will be monthly on pro-rata basis as per the RFP.
19	General	General	NA	EY	In the RFP development team is required for development, hosting and maintenance of developed software. However, technological stack is not mentioned in the RFP. Request you to please provide technology details for development wrt UI, backend, DB etc	Agency will provide the required infrastructure details and deployment which shall be discussed in 2nd pre-bid meeting.
20	Section 3.1.32, page 31	SCOPE OF SERVICES AND ROLES	Bidder should follow latest guidelines of Government of India to be adhered by the IT/Network teams of each of Ministry/Department. In compliance to this, bidder should ensure that the Application/website/services are hosted only at the designated data centres of Government or Cloud Service Providers empanelled by MeitY.	EY	In case if application is hosted on empanelled Cloud Service Providers, who will bear the cost of the same?	Agency will provide the required infrastructure and deployment. However, the hosting will be done in government cloud infrastructure. This costing should be given in advance
21	Section 3.2.3, page 32	Specific Conditions applicable for the engagement of Manpower	In case DCPC has to make any compensation/payment to any person deployed by the Bidder, the Bidder shall reimburse such amount and all the expenses incurred by DCPC in defending the case filed against regard to DCPC	EY	Need more clarity on the clause.	No payment from our side to PMU. All expenses to be borne by the bidder including laptops and salaries. Travel to be reimburse to the agency on actual basis
22	Section 3.2.5, page 32	"	Consultant (Monitoring) qualification: M.Sc. /MA (Stat. or Applied (Stat) or MA/M.Sc. (Data Science) /MA (Economics or (Applied Economics) from recognized university/ college/institutes	EY	Monitoring & Evaluation is one of the key activity performed by all consulting firms in various projects. It is requested that the qualification criteria may widen by adding BE/B.Tech/MCA etc.	Accepted.
23	Section 3.2.5, page 33	"	Data Entry Operator qualification: 10+2 in any discipline from recognized university/college/institutes	EY	In general, all the consulting firms hire resources with higher education qualification (e.g. BE/B.Tech/MCA). Considering this, it is requested to allow the outsourcing of resources (Data Entry Operator) from third party.	Bidders has to do it. However, minimum qualification shall be 10+2 in any discipline as per RFP.
24	ANNEXURE-G: page 48	BID Format	The bidder must have more than five years' experience of working on similar type of software platform developments in any state/ central government /PSUs/ Public Sector Banks/ Corporations with combination of experience in implementing the cloud solution, System Integration, Virtualization, Security, project management and planning, system architecture, database administration, server administration, web portal - A certificate to this effect from a Chartered Accountant must be submitted with the proposal.	EY	It to mention that the chartered Accountant handles the financial related matters of the firms. The said criteria is related to performance/experience of the firms. Hence, it is requested that certification from competent authority may allowed as Documentary Evidence.	May be considered.
25	1.3 Background of DCPC e-Governance projects, Page no 8		At present a web based Production Monitoring System is being maintained which is based on offline data.	EY	Kindly provide the technology stack details of the existing website and available database size	JSP with SQL Server database.

26	1.4 New Initiatives/Projects , Page no 8		c. A predefined set of Data Access APIs need to be built up to export/import of chemical sector data available with other authentic sources. Platform should seamlessly have integrated with existing legacy platforms by building suitable connectors/APIs.	EY	We understand that the new system will replace the existing web application and all new transactions shall be done on new web application. However, the mentioned clause indicates that legacy system will be leveraged and new standard APIs shall be developed for existing system for pulling data from various third party portals. Kindly suggest, if the enhancement of the existing web application is also under's bidder's scope of work	API needs to be created additionally for other sources data already available under various departments/ministries, in the Government.
27	1.7 Scope of the Work(s), Page no 10		a) Study, Requirement understanding and Analysis with respect to developing Single-window Data Collection Platform for all industries associated with DCPC after undertaking the study of the existing systems:	EY	We understand that development of new integrated portal will be guided by approved FRS & SRS documents and any enhancement in the same post go live will be guided by approved change request. Kindly confirm	Yes.
28	1.7 Scope of the Work(s), Page no 10		g) The system should be capable of "on-the-fly" data capturing configuration in such a way that various checks and validations can be configured and put in place to minimize the data entry errors from manufacturing units.	EY	On the fly addition of any new field in the existing form may lead to the situation wherein data will not be available against this new additional field in the previously captured records. This will have consequential impact on the related report. We understand that DCPC is aware of this fact and the related impacts. kindly confirm	Yes.
29	1.7 Scope of the Work(s), Page no 10		System front-end should initially be Bilingual (Hindi & English) and shall have provision for easily supporting other Indian Languages (multilingual) in future.	EY	We understand that data entry shall be only in English not in other languages. Kindly confirm	Provision may be provided for supporting the other languages too except Hindi and English.
30	1.7 Scope of the Work(s), Page no 10		Bidder shall carry out the Data migration /Porting of existing data into the new system. The format/schemes of existing data may be provided to the bidder on request.	EY	We request to kindly share the scheme of the existing database so that data migration feasibility can be studied	It will be provided, after selection of agency.
31	1.7 Scope of the Work(s), Page no 10		Bidder shall get the system security audited at its own cost from CERT-In/CERT-In empanelled bidders.	EY	As a standard practice, DCPC should onboard CERT-IN empanelled agency and make the necessary payment to the security audit agency to avoid any conflict of interest.	Bidder can give cost for this work, for which payment shall be made by DCPC on actual basis.
32	1.8 Additional activities under above scope of work include the following, Page no 11:		<ul style="list-style-type: none"> ● Maintenance of IT Platforms, Web-portals and Web Applications ● User helpdesk support: DCPC has a requirement of helpdesk support, which can be done through PMU. ● Onsite Support manpower for PMU can be engaged under the scope of this at the manpower rates as finalized through this tender. ● Conversion of the existing IT Platforms, Web-portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder. ● Any modifications and/or enhancements / up-gradation required by DCPC in the software during support period shall have to be incorporated by the successful bidder free of cost during warranty period. ● Selected bidder will be required to incorporate amendments and enhancements from time to time and also to attend to any problem in day to day functioning of the system during warranty period. 	EY	<p>The closure of security audit points, bug and issue fixing and making changes in web application as per latest GIGW guideline require changes at source code level. The current PMU construct doesn't have provisions for the resources required for performing these activities.</p> <p>We understand that the above scope of work will be limited to proposed new web application. Kindly clarify</p>	Such issue is part of RFP, as a integral part of project.
33	(ii) Development and Hosting of web-based Chemical and Petrochemical Data Management System (CPDMS), Page no 12		The bidder will host the centralized database management, administration and maintenance of web-portal.	EY	Kindly suggest if the cloud hosting is permissible. Also who is going to bear the hosting cost	Cost shall be borne by DCPC.

34	Section II, General Terms and Conditions 2.0 Eligibility Criteria, Page no 23		The Bidder must have successfully completed at least three orders/contracts/development projects in last three years, based on any one or more of the following, o Open-Source Technologies (Java, J2EE) or o REACT, Node, Devops or o Microsoft Technologies/Cloud Computing.	EY	We request to kindly modify this clause as follows : The Bidder must have successfully completed at least three orders/contracts/development projects in last five years, based on any one or more of the following, o Open-Source Technologies (PHP, Java, J2EE) or o REACT, Node, Devops or o Microsoft Technologies/Cloud Computing.	Shall be discussed in 2nd pre-bid meeting.
35	8	1.4 New Initiatives/ Projects	Scalable, secure, robust and responsive online system for centralized Data Collection Platform for all chemicals and petrochemicals industries to integrate with existing/New DCPC systems.	KPMG	It is requested to kindly confirm that new modules to be developed will be part of existing portal (https://chemicals.gov.in/) or some new portal needs to be developed?	New portal needs to be developed by bidder, but it should be linked with main portal from the beginning itself.
36	9	1.6 Objectives	It is expected from Bidder that they should have the requisite tools/ licenses for the development available with them both in onsite and offsite cases.	KPMG	We request for sharing the format for data migration into database and explaining the volume of data.	It shall be informed.
37	10	1.7 Scope of the Work(s)	Bidder shall carry out the Data migration/Porting of existing data into the new system. The format/schemes of existing data may be provided to the bidder on request.	KPMG	We request for sharing the format for data migration into database and explaining the volume of data.	It shall be informed.
38	10	1.7 Scope of the Work(s)	Bidder shall get the system security audited at its own cost from CERT-In/CERT-In empaneled bidders.	KPMG	We request that security audit may be carried out by Department through CERT-In/CERT-In empaneled vendor, however bidder need to support the vendor in security audit process.	Bidder has to bear the cost.
39	10	1.7 Scope of the Work(s)	The design should organize business logic (with facility for authorized users to define, modify, add, and delete business rules from front end) and presentation logic separately while developing and implementing the proposed system, thus, restricting the database queries to be inserted inside the presentation and business logic; rather, it should be written in the Database only.	KPMG	We request for excluding the Deletion facility otherwise it will be the security audit issue and it will be difficult to track activities performed by various users (stakeholder)	After submission of informathion from industrial unit, nodal officer from DCPC shall have authority to delete it.
40	11	1.8 Additional activities under above scope of work	Maintenance of IT Platforms, Web-portals and Web Applications.	KPMG	We request for confirming that what all includes and their platform / tech stack?	It is related to migration of data from existing PMS portal. It will be allowed after the selection of the agency. However, a brief detail on the same will be provided in advance.
41	11	1.8 Additional activities under above scope of work	Conversion of the existing IT Platforms, Web- portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	KPMG	It is requested to share all Platform/portal/application to estimate fee for Security audit, GIGW Audit and Server Hosting OR it may be kept separate from the development parts and should be managed by the Department.	It is related to migration of data from existing PMS portal. It will be allowed after the selection of the agency. However, a brief detail on the same will be provided in advance.
42	11	1.8 Additional activities under above scope of work include the following	User helpdesk support: DCPC has a requirement of helpdesk support, which can be done through PMU.	KPMG	We request to provide more details for the Helpdesk Support activities. Ideally there should be dedicated resources for helpdesk activities.	As per RFP.
43	11	1.8 Additional activities under above scope of work include the following	Conversion of the existing IT Platforms, Web- portals and Web Applications in compliance with latest GIGW Version 2 guidelines and same shall be security audited by a CERT-IN empanelled bidder.	KPMG	It is requested to confirm that how many existing systems/applications are there? What's the technology stack used in each of these systems?	It is related to migration of data from existing PMS portal. It will be allowed after the selection of the agency. However, a brief detail on the same will be provided in advance.

44	12	1.9 (ii) Development and Hosting of web-based Chemical and Petrochemical Data Management System (CPDMS)	The bidder will host the centralized database management, administration and maintenance of web-portal.	KPMG	It is requested to confirm whether (i) Cloud infrastructure is acceptable and (ii) Parameters required for infra provisioning, if if Bidder has to provision for hosting of solution. Further we are requesting to keep hosting charges separate from the scope.	Agency will provide the required infrastructure and deployment. However, the hosting will be done in Government cloud infrastructure or open source, as per Meity guidelines.
45	13	1.9 Basic features of the software to be developed	Link Analysis software should be developed to read structured & unstructured data, coupled with techniques of Data Crawler, Aggregation or easily integrated with other similar solutions.	KPMG	It is requested that licensed products cost be borne by Department. Please also confirm whether approvals for Data crawling on any website will be taken care by Department?	Cost of Licensed products shall be borne by DCPC.
46	11	1.9 (i) Expansion of Industries/Units	The main responsibility of the bidder will be to conceive, design, validate and tabulate Chemical and Petrochemical Sector data from chemical and petrochemical industries in India.	KPMG	It is requested to elaborate this clause for finalizing the requirements. It seems this also requires a chemical / petrochemical expertise of the Department.	Expert from chemical and petrochemical industries may be deployed through bidder, as per their requirement which is also part of the project.
47	15	1.11 Indicative Deliverables	Translation Services for new/existing Websites/ Portals.	KPMG	We request for sharing details of existing website/portals for translation. Also no. of languages in addition to Hindi & English (if any).	Provision may be provided for supporting the other languages too.
48	16	1.11 Indicative Deliverables	SSL Certificate (To be procured by Bidder)	KPMG	It is requested to confirm that how many SSL certificates are required for the procurement ?	1 SSL Certificate is required.
49	15	1.11 Indicative Deliverables	The selected bidder will therefore be required to submit Monthly Performance Report (MPR) and attendance to DCPC in advance in a prescribed format (will be provided along with procedure) within the last week of every month.	KPMG	It is requested to allow for the submission of MPR in 1st week of subsequent month.	It is required for timely payment to the PMU manpower.
50	21	1.18 Manpower/ Resources related terms and conditions	If the DCPC recommends, a deployed resource must be replaced by the Bidder within a period of 2 working days.	KPMG	It is requested that timeline for providing replacement (2 days) and associated penalties should be revisited and as per standard practices it may be changed to 2 weeks.	As per RFP.
51	21	1.18 Manpower/ Resources related terms and conditions	Nonattendance results in a penalty amount double the quoted rates on a pro rata basis.	KPMG	It is requested that Penalty may be capped upto a certain amount. May also clarify if there is any permissible leaves for the resources over and above the Gazette holidays.	As per RFP. No permissible leave is applicable here.
52	23	2.0 Eligibility Criteria	The Bidder must have successfully completed at least three orders / contracts/ development projects in last three years, based on any one or more of the following: · Open-Source Technologies (Java, J2EE) or · REACT, Node, Devops or · Microsoft Technologies/Cloud Computing	KPMG	We requested to consider the assignments carried out in last 5 years.	As per RFP.
53	23	3.1.9 General Terms and conditions	Bidder shall also maintain enough of similar manpower on their rolls to enable meeting replacement/substitution as required by DCPC.	KPMG	Clarity may be provided on the number of such resources that may be needed as the work required specialized resources.	It may be assessed and maintained by the bidders.
54	29	3.1.14 General Terms and conditions	For substitutions as well as for any delay in deployment of manpower, penalties shall also be payable by the bidder as per given by DCPC	KPMG	We request for providing clarity on penalty clause and rules for penalty.	As per RFP.
55	31	3.1.24 General Terms and conditions	The person to be deployed by the Bidder shall work under the control of DCPC. He may be assigned to any work decided by the Authority of DCPC as and when required. If any of the manpower deployed by the bidder will disobey to carry out such order of the Authority; his/her service shall be withdrawn immediately and sent back to the Bidder. In such a case the Bidder shall provide a substitute manpower within 3(Three) days.	KPMG	We request for revising the timeline of 2 weeks for providing replacement of manpower instead of 3 days for hiring the suitable candidate.	As per RFP.

56	40	3.18 Payment Process	i. First installment of 25% of the total cost at the time of the delivery and installation of CPDMS Software. ii. Second and final installment of 75% of the total cost on final submission, acceptance and successful implementation of the CPDMS Software.	KPMG	We request to have staggered payment with clear milestone. Proposed payment schedule: a. Requirement document Submission (FRS/SRS): 15% b. Submission of Design Document (Low Level Design and High Level Design): 15% c. Completion of Development and internal Testing of IT System: 30% d. UAT& Go Live: 15% e. Training: 5% f. Stabilization of the System for Next 3-Months: 20%	It shall be discussed in 2nd pre-bid meeting.
57	56	Annexure H	Launch of the new web-based CPC Data Management System	KPMG	There will be required to understand system requirements for end-to-end delivery, so it is requested to keep at least 6 to 8 months of timeline for software development.	3 weeks extra time is being given, in addition to existing timeline.
58	2	RFP schedule, Page 2	Last date for Online 27.01.2023 till Submission of e-bids 3 PM	KPMG	We request to provide extension of at- least 2 weeks, for us to prepare a quality bid.	As per RFP.
59				C.E. Info Systems Limited	Eligibility Criteria (Additional): 1) The bidding firms must also have a minimum 5 (Five) years of relevant experience in handling GIS Based Data Management System as well as carrying out Geo-tagging, Geo- referencing and GIS mapping. 2) The bidding firms must have the experience of completing/carrying-out at least two projects in Creation of Geospatial portal in Web and Mobile Delivery mode.	Noted.
60				C.E. Info Systems Limited	Scope of Work: 1. Design, Development, Implementation and Maintenance of proposed GIS based online integrated system (Modification of the 1.7 Scope of the Work(s) point (b)) Additional (SOW) 2. Spatial and temporal analysis of Chemical and petrochemical trends in manufacturing consumption. 3. Geo-tagging of the Industries/plants & sites as per their characteristics.	Noted and included in RFP.
61				Liberin Technologies Pvt. Ltd.	We are registered DIPP startup and are registered under MSME. Request you to clear on how Technical Bid marks will be evaluated for us.	Relaxtion on EMD and turnover for Startup and MSME has been given only. Rest shall be taken as per RFP.
62				Liberin Technologies Pvt. Ltd.	Please consider the evaluation of startups solely based on Technical Presentation and Financial Bid and waive off any eligibility and experience criteria mentioned in the tender.	
63				Liberin Technologies Pvt. Ltd.	Please consider to waive off EMD and Tender Fee amount under Startup and MSME act.
